Colorsense

Il nuovo programma colori Colorsense, risultato della sinergia tra Arte Brotto e Foglie d'Oro, nasce per valorizzare la bellezza del legno di Noce e progettare ambienti unici e su misura, di grande impatto, attraverso l'utilizzo di codici cromatici ispirati alla natura e in sintonia con le più recenti tendenze dell'interior design e della moda. Grazie alla competenza tecnica e alla ricerca estetica sviluppata dai due brand della famiglia Brotto, le venature e la struttura del legno più pregiato incontrano nuove e suggestive nuance, restando perfettamente visibili in trasparenza: ecco allora che il carattere più autentico del Noce rivela la sua anima versatile e contemporanea, inserendosi in modo coerente in ogni contesto progettuale.

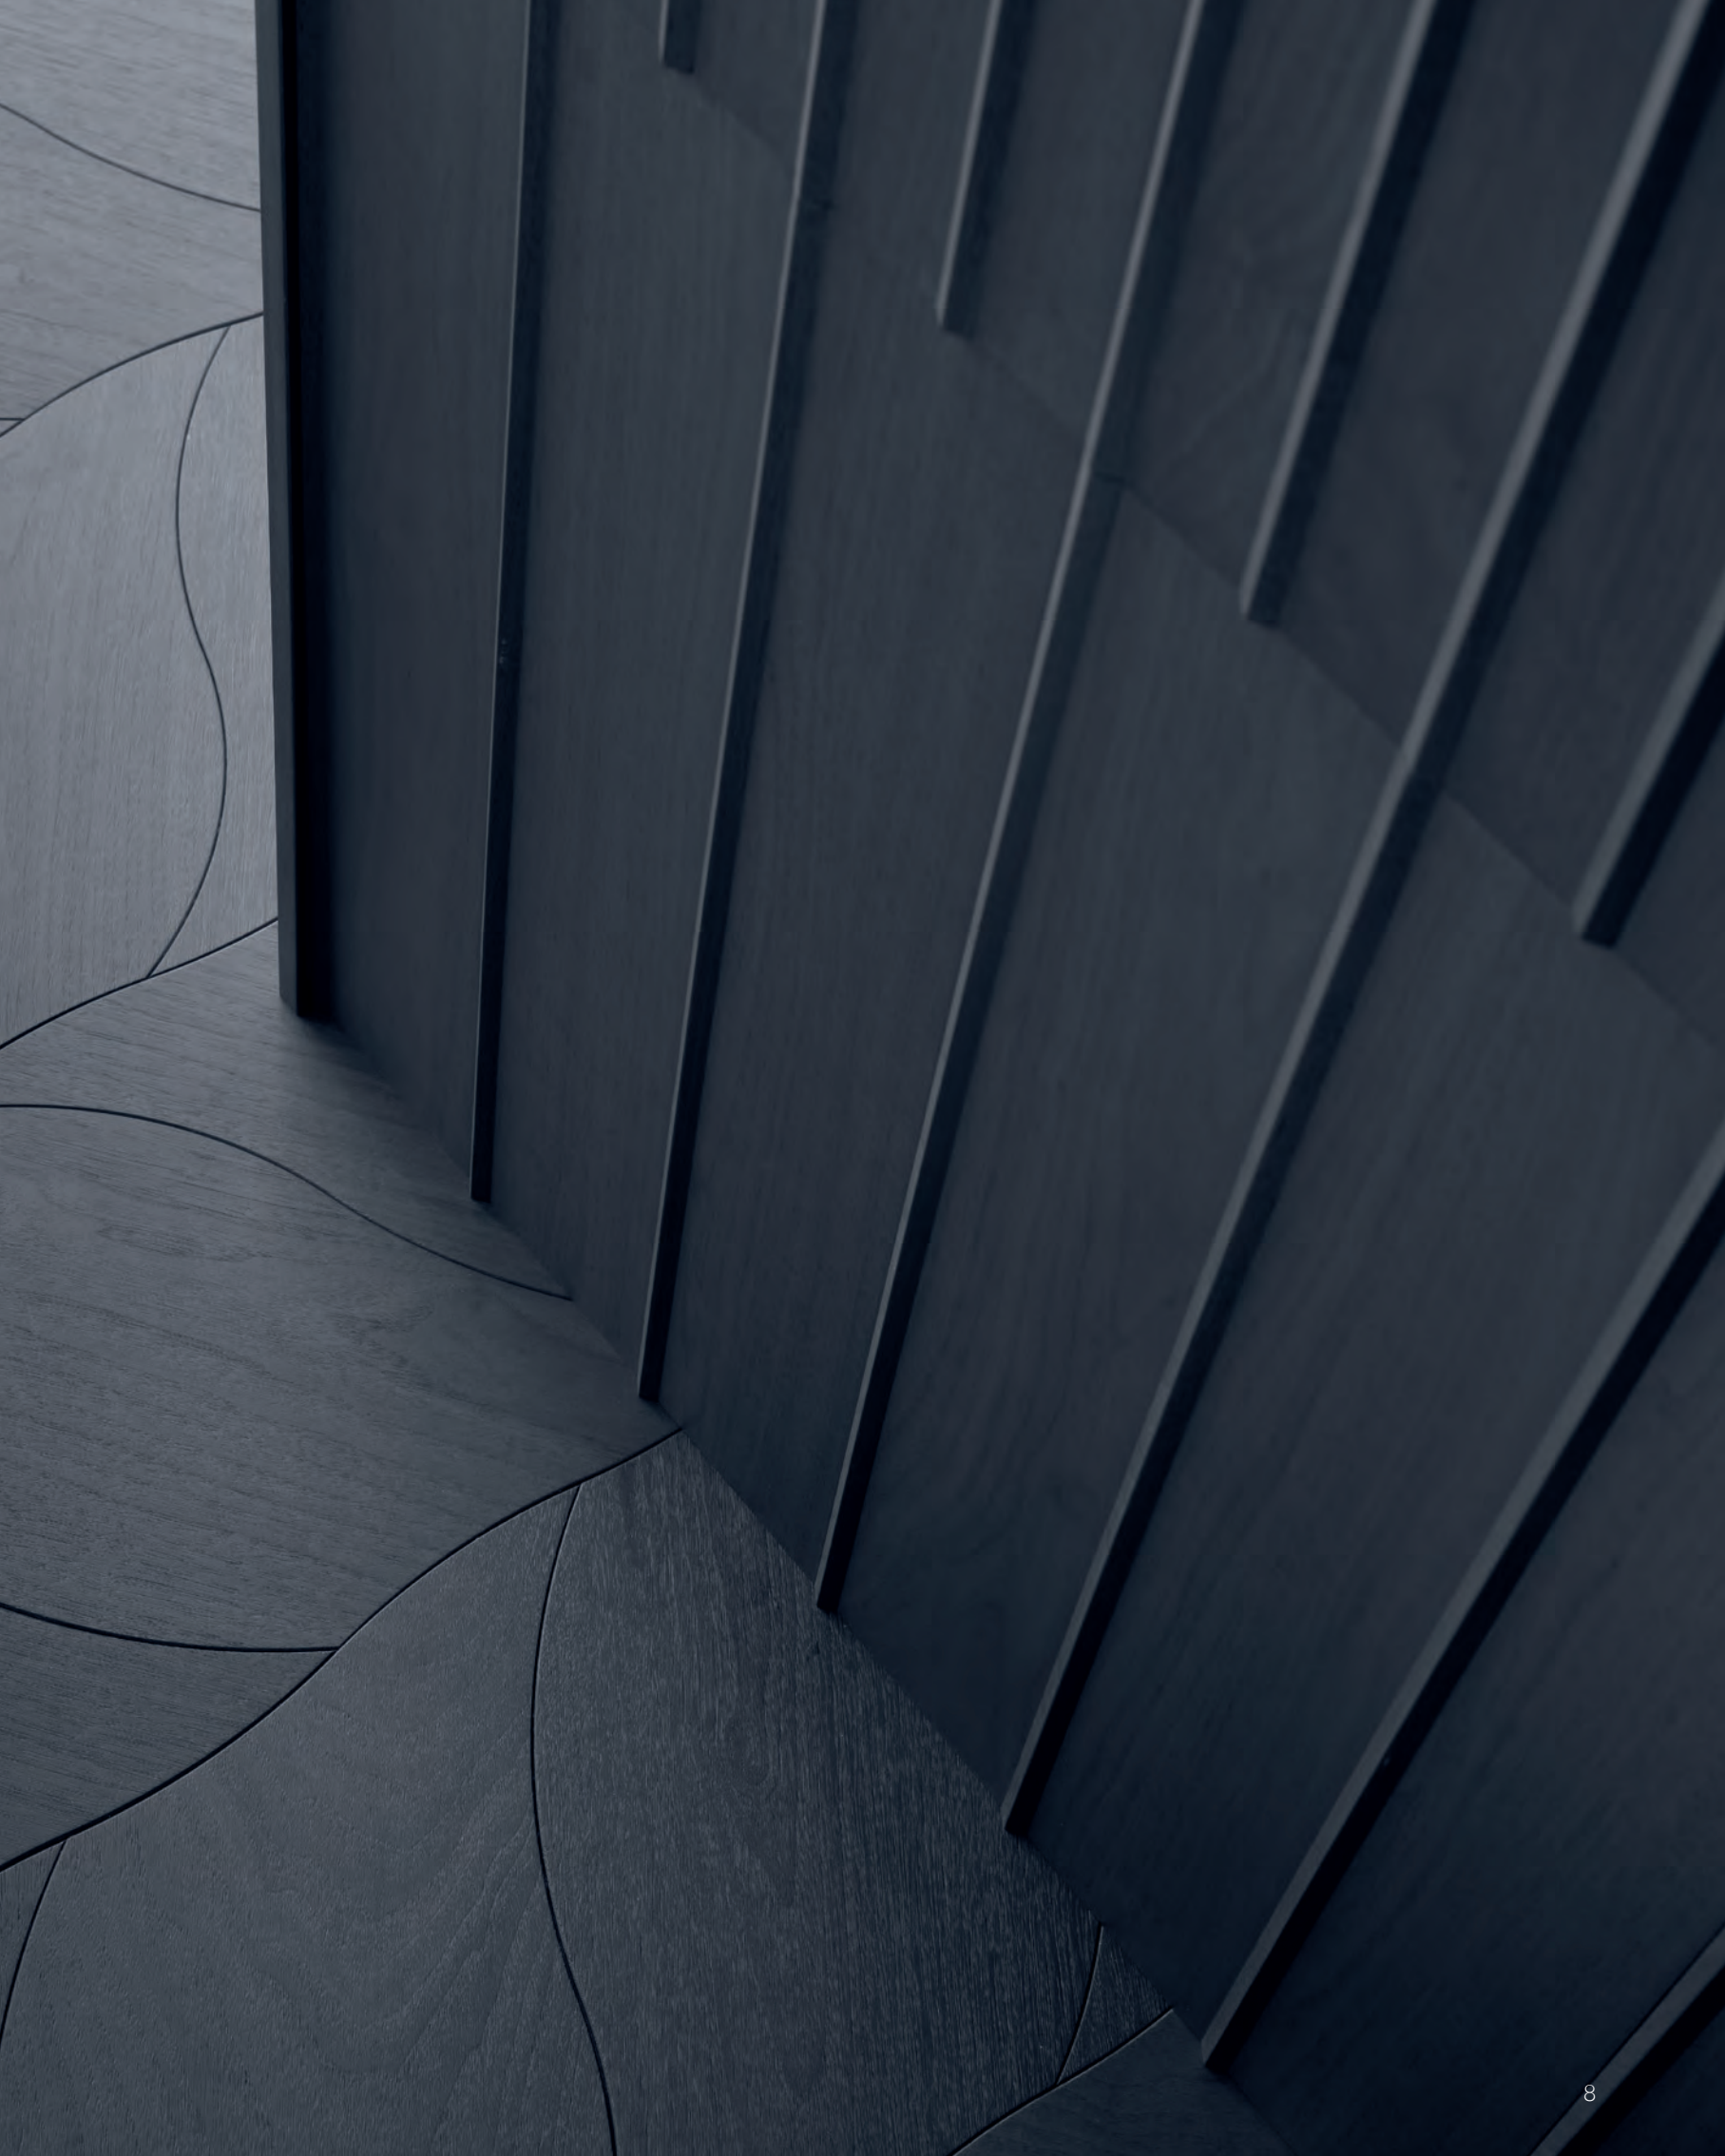

Ocean Blue, Blue Lagoon, Sky Blue, Green Valley, Green Tea Time, Green Forest, Brown Landscape, Red Sunset, Mountain Rose: nove differenti tonalità, immaginate e create da Arte Brotto e Foglie d'Oro per personalizzare e rendere uniche superfici orizzontali e verticali – pavimenti e boiserie, ma anche mobili e complementi d'arredo – in un perfetto equilibrio di eleganza e originalità.

The new Colorsense color program, as a result of the synergy between Arte Brotto and Foglie d'Oro, is created to enhance the beauty of Walnut wood and to design unique and stunning made-to-measure interiors, by using color codes inspired by nature, matching the latest trends in interior design and fashion. Thanks to the technical expertise and the aesthetic research of the two brands of Brotto family, the grain and texture of the finest wood meet new and striking nuances, remaining perfectly visible in transparency. Here, then, the most authentic nature of Walnut reveals its versatile and contemporary soul, fitting coherently into any design project.

Ocean Blue, Blue Lagoon, Sky Blue, Green Valley, Green Tea Time, Green Forest, Brown Landscape, Red Sunset, Mountain Rose: nine different shades, designed and created by Arte Brotto and Foglie d'Oro to customize and make unique horizontal and vertical surfaces - floors and wall panelings, but also furniture and furnishing accessories - in a perfect balance of elegance and originality.
