**To understand the light
I need the shadow.**

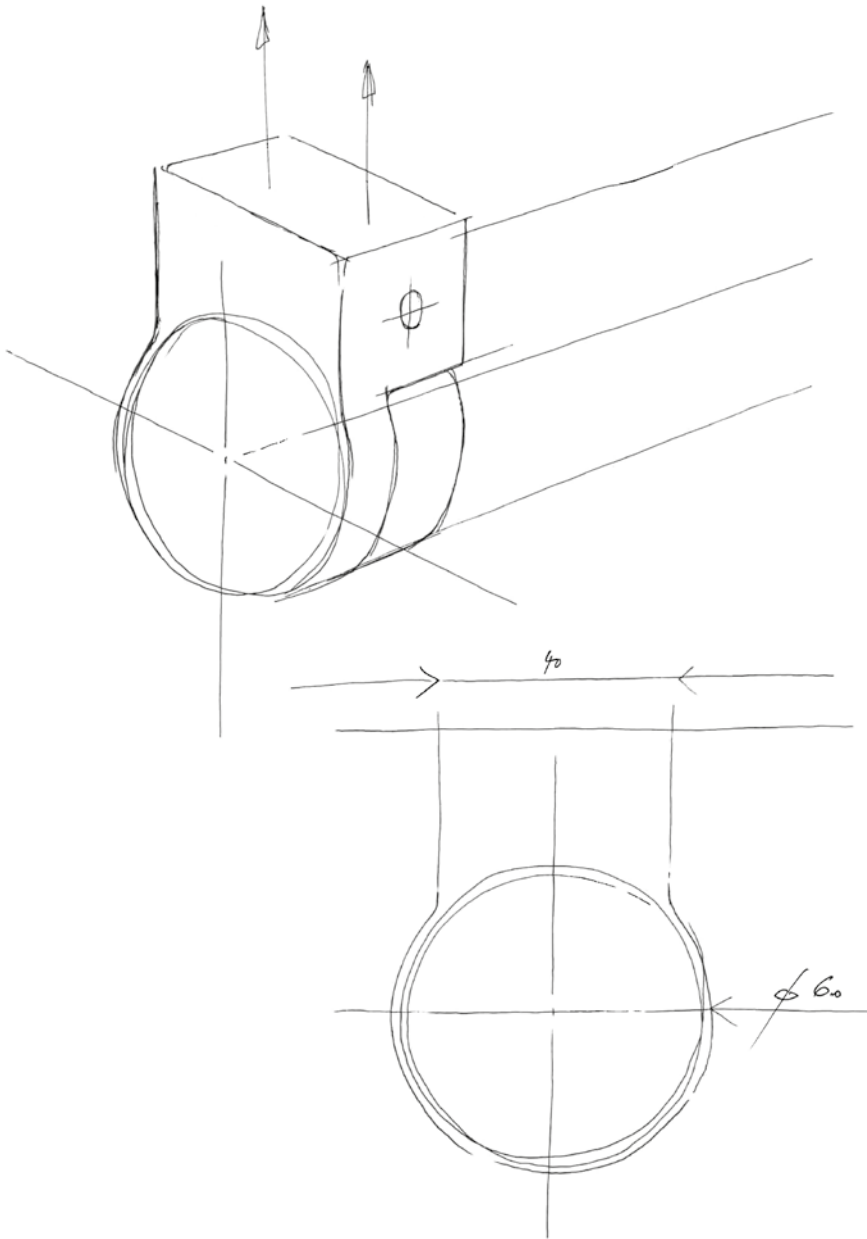

*Per poter capire la luce
ho bisogno dell'ombra.*

Piero Lissoni

New collection

**Aesthetic synthesis,
a harmonious fusion
of style and function,
and technical excellence:
an exclusive collection
of designer blinds
from the collaboration
of Mycore and Piero
Lissoni.**

*Sintesi estetica, fusione armonica tra stile
e funzione, eccellenza tecnica: dall'incontro
tra Mycore e Piero Lissoni, un'esclusiva
collezione di tende di design.*

Relax. Immerse yourself in spaces flooded with a liquid light that softly filters in to illuminate the peace that you love so much. Your privacy is protected, your gaze relaxes. Interior and exterior meld together in a way never seen before, with daytime and nighttime light interacting in a continuous play of gentle scene changes.

Today, the essential aesthetics of Piero Lissoni are interwoven with Mycore's strong skills in the field of technical designer blinds to create an exclusive product that will light up your spaces to perfection every day.

This new line interprets contemporary tastes through products created with sartorial care over design and production: the most authentic expression of Made in Italy. A collection with timeless charm, skilfully designed to enhance residential and commercial spaces with light.

Rilassati. Lasciati avvolgere da ambienti inondati da una luce fluida che filtra soffusa ad illuminare la quiete che ami. La tua privacy è protetta, il tuo sguardo si distende. Interni ed esterni si fondono in modo inedito, luci diurne e notturne dialogano in un costante rimando fatto di morbidi cambi di scenario.

L'essenzialità estetica di Piero Lissoni oggi si intreccia con le solide competenze Mycore nell'ambito delle tende tecniche di design per dare vita ad un prodotto esclusivo, capace di illuminare ogni giorno la perfezione degli ambienti.

Questa nuova linea interpreta il gusto contemporaneo con prodotti frutto di una cura sartoriale sul fronte progettuale e produttivo, espressione del più autentico Made in Italy. Una collezione dal fascino senza tempo, sapientemente disegnata per valorizzare tramite la luce ambienti residenziali e spazi contract.

Piero Lissoni. Design takes shape.

Piero Lissoni. Il design prende forma.

An icon of Italian and international design and architecture, Piero Lissoni is the founder and driving force behind Studio Lissoni & Partners, which has been bringing together multiform skills and interests in projects with a highly recognisable visual identity for almost forty years.

Proportional harmony, the elegance of the overall effect and attention to detail are the principles guiding the development of designs that stand out for their precision and aesthetic synthesis. Studio Lissoni & Partners has brought together the development of brands with some of the best-known institutions using a holistic, sartorial approach that is able to encompass artistic direction and product design, interior architecture and graphics.

Now, Piero Lissoni has designed a new collection of Mycore products, created to embellish light with an original style.

Iconica firma del design e dell'architettura italiana e internazionale, Piero Lissoni è fondatore e anima dell'omonimo Studio Lissoni & Partners, che da quasi quarant'anni intreccia competenze e interessi multiformi in progetti con un'identità visiva di marcata riconoscibilità.

Armonia delle proporzioni, eleganza dell'insieme e cura dei dettagli sono le coordinate all'interno delle quali si sviluppano progetti che spiccano per rigore e sintesi estetica. Lo Studio Lissoni & Partners ha affiancato lo sviluppo di brand e istituzioni tra i più noti attraverso un approccio

olistico e sartoriale, capace di spaziare dalla direzione artistica al product design, dall'architettura agli interni, fino alla grafica.

Oggi Piero Lissoni firma una nuova collezione di prodotti Mycore, nati per vestire la luce tramite uno stile inedito.

“

It is an object you can hardly see, you have to make it work to filter the light. Like a lens that changes the relationship between inside and outside, and vice versa, but you can also make it invisible. An object designed almost inside out, like a lamp that does not give light, but instead creates shadows.

È un oggetto che quasi non si vede, bisogna farlo lavorare per filtrare la luce. È come una lente che cambia il rapporto tra dentro e fuori e viceversa, ma puoi anche azzerare la sua presenza. Un oggetto disegnato quasi al rovescio, come una lampada che però non serve a fare luce, ma a fare ombra.

“

**Light is
impressionism.**

*La luce è
impressionismo.*

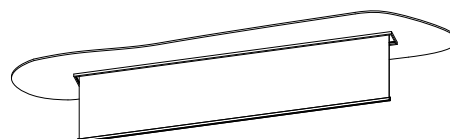

Gae Aulenti

Hyper

Clean lines, in an authentically essential design. The support for the blind, concealed in a false ceiling, becomes invisible with Hyper. The narrow slot that allows the fabric to unroll is decorated with a minimalist frame: decor that perfectly fits with contemporary interiors and more classic rooms, for a timeless style.

Linee nette, in un design di autentica essenzialità. Il supporto della tenda, nascosto nel controsoffitto, con Hyper diventa invisibile. La sottile fessura che permette la discesa del telo è rifinita da una cornice minimale: un elemento d'arredo capace di interpretare interni contemporanei e spazi più classici, per uno stile senza tempo.

Installation

Hidden into plaster ceiling
A scomparsa nel controsoffitto

Type

Single or combined version
Singolo o abbinato

Product variants

Corner combination,
reduced false ceiling
*Combinazione ad angolo,
controsoffitti di piccole dimensioni*

Operation

Motorised system
A motore

Lowering of the fabric

In front or behind the roller
*Discesa del telo: davanti
o dietro all'avvolgibile*

Fabrics

Fabrics with different covering properties, sound-absorbing fabrics, printed fabrics and for video projection
Tessuti con diversi gradi di copertura, tessuti fonoassorbenti, tessuti stampati e per proiezioni video

Technical info

→ P. 46

Hyper

The blind allows you to adjust the light by superimposing filtering and darkening fabrics, and, once rolled up, restores the joy of large expanses of window.

La tenda permette di modulare la luce attraverso la sovrapposizione di teli filtranti e oscuranti, restituendo, una volta chiusa, l'emozione delle grandi aperture vetrate.

A fine frame in extruded aluminium or wood, with a minimalist design and made with 45° precision cutting, guaranteeing the best possible construction quality and aesthetic results.

Una sottile cornice in alluminio estruso o legno, caratterizzata dal design minimale e realizzata con tagli di precisione a 45°, che garantiscono la massima qualità costruttiva e resa estetica.

Finishes

Finiture

Available in four different finishes, Hyper can express different moods and styles, ranging from the simplicity of white to the textured intensity of wood.

Disponibile in quattro diverse finiture, Hyper permette di interpretare stili e mood differenti, spaziando dall'essenzialità del bianco al sapore materico del legno.

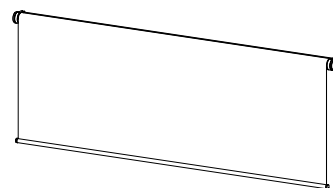

Leeway

A union of showmanship and minimalism: Leeway includes an attachment for the roller blind using an elegant aluminium bar, which provides flexibility in terms of installation and enhances the space with the beauty of the materials and its clean design.

L'unione tra presenza scenica e minimalismo: Leeway prevede l'aggancio della tenda a rullo tramite un'elegante barra di alluminio, che regala flessibilità installativa e impreziosisce l'ambiente con la bellezza dei materiali e la pulizia del design.

Installation

Ceiling or wall mounted
A soffitto o a parete

Type

Single or combined version
Singolo o abbinato

Products variants

Fixed support or movable along the track (requires the intervention of an installer)
Supporto fisso o spostabile lungo il binario (richiede l'intervento di un installatore)

Operation

Moved by chain or motorised system
A catena, a motore

Lowering of the fabric

Standard in front of the roller
Discesa del telo: standard davanti all'avvolgibile

Fabrics

Fabrics with different covering properties, sound-absorbing fabrics, printed fabrics and for video projection
Tessuti con diversi gradi di copertura, tessuti fonoassorbenti, tessuti stampati e per proiezioni video

Aluminium machined from solid available in three finishes, for a technical and functional element that also becomes an elegant piece of furniture.

Alluminio scavato dal pieno disponibile in tre finiture, per una componente tecnica e funzionale che diventa prestigioso elemento d'arredo.

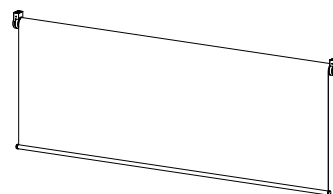

Shard

With an extremely compact appearance, Shard juxtaposes soft, beguiling lines with decisive, clean-cut edges, creating a harmonious overall effect that is dynamic, energetic and light.

Attraverso una veste visiva di estrema compattezza, Shard accosta linee progettuali morbide e avvolgenti, con profili netti e decisi, definendo un insieme armonico di forte dinamismo, energia e leggerezza.

Highly refined weaves combined with innovative technical functions, all available in Mycore's extensive catalogue.

Trame ricercate, unite a funzionalità tecniche innovative, da scegliere nell'ampio catalogo tessile Mycore.

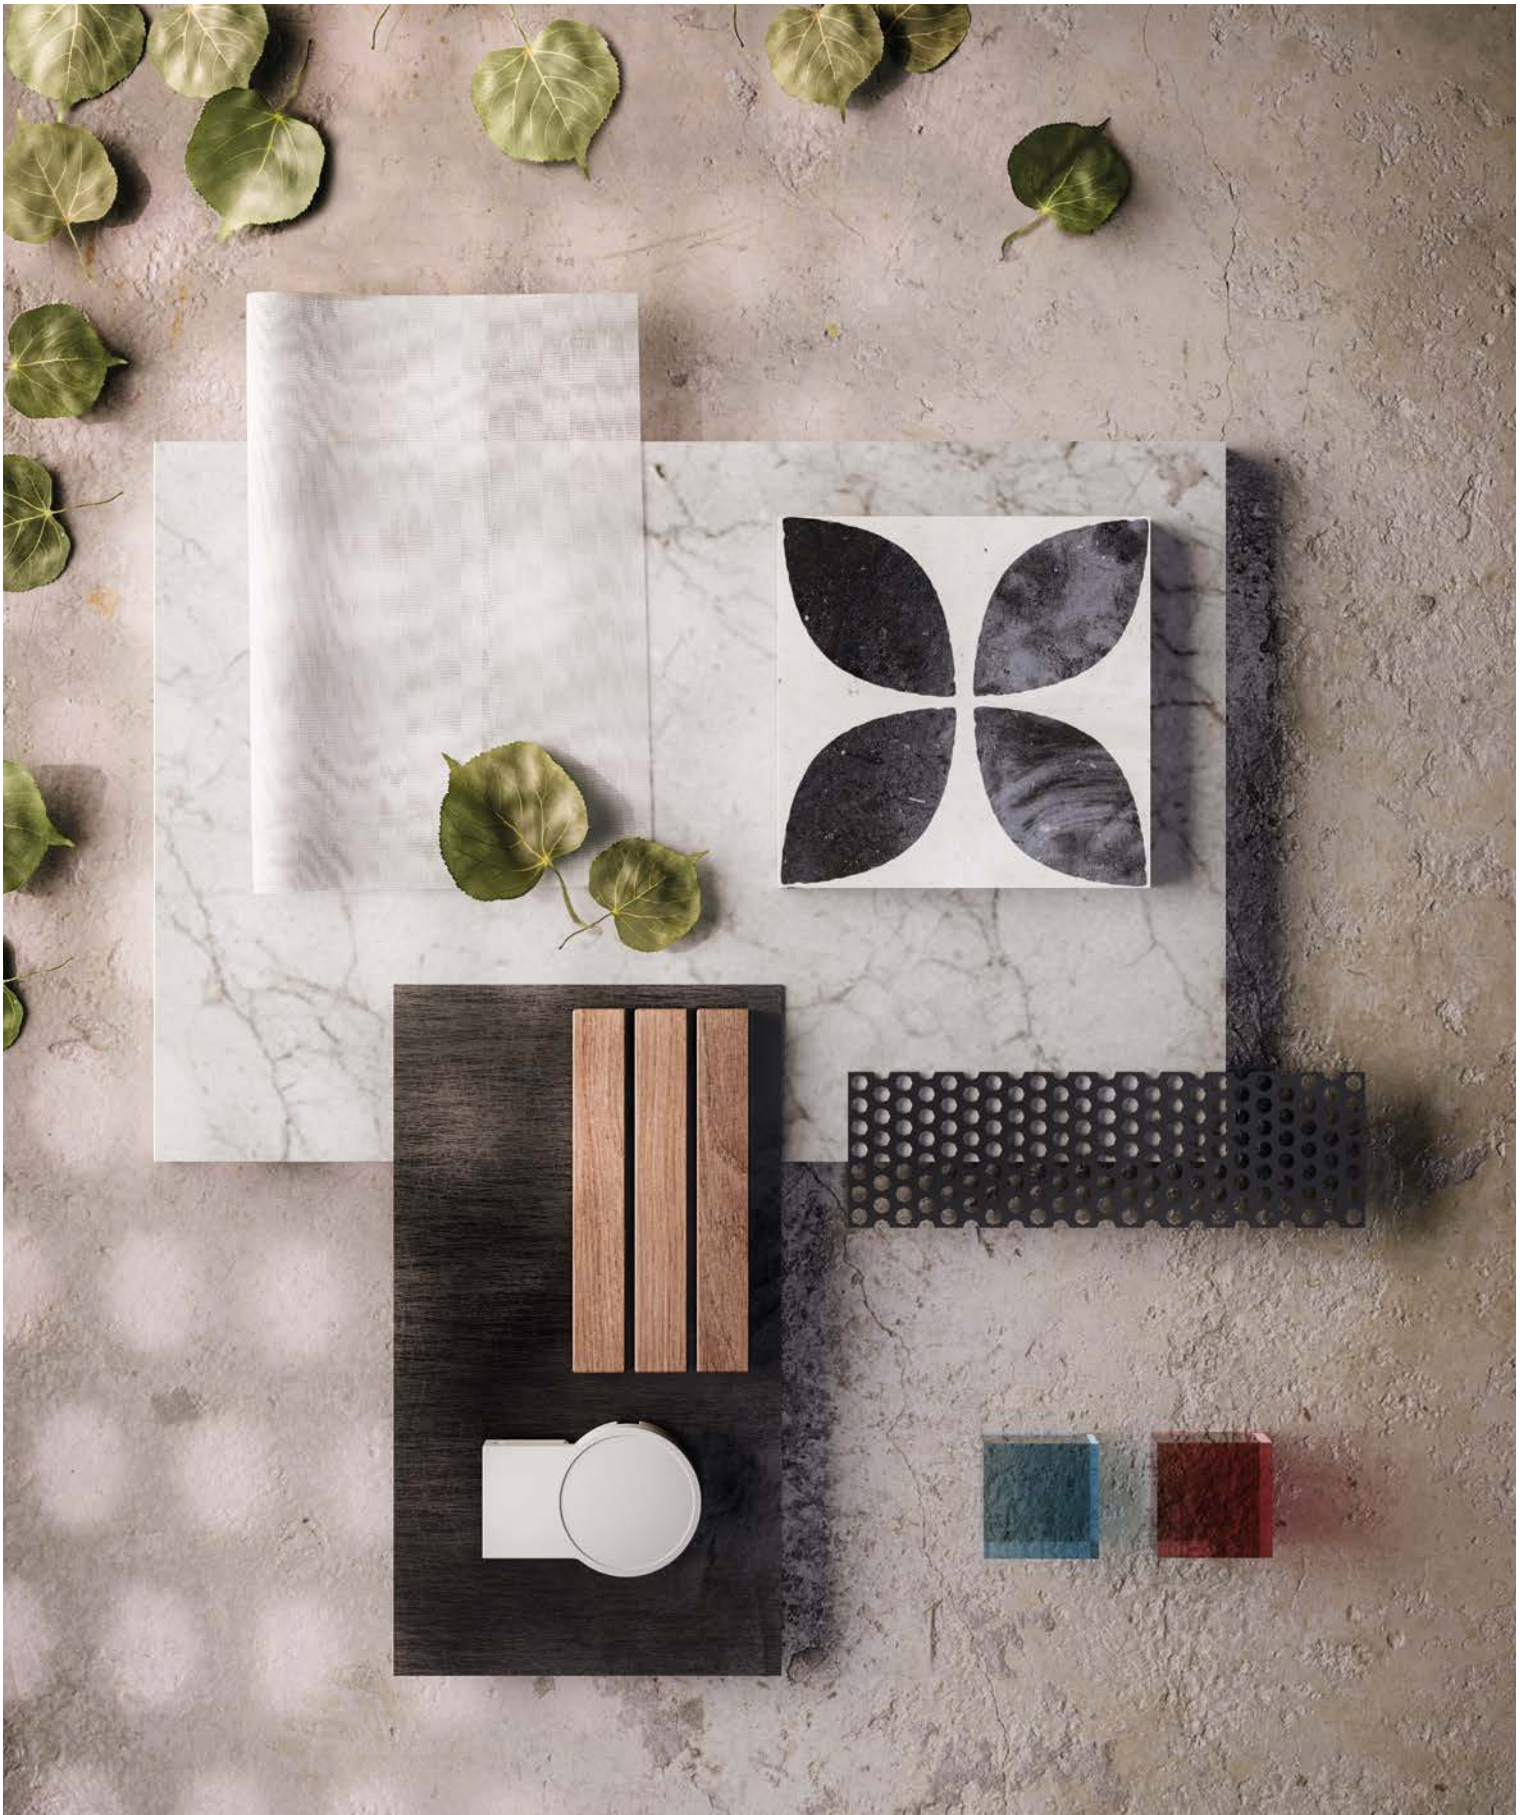

Finishes

Finiture

Matt coatings, made in Italy, guarantee sophisticated design that keeps its charm over time.

Verniciature opache, realizzate in Italia, assicurano un design pregiato che mantiene il suo fascino nel tempo.

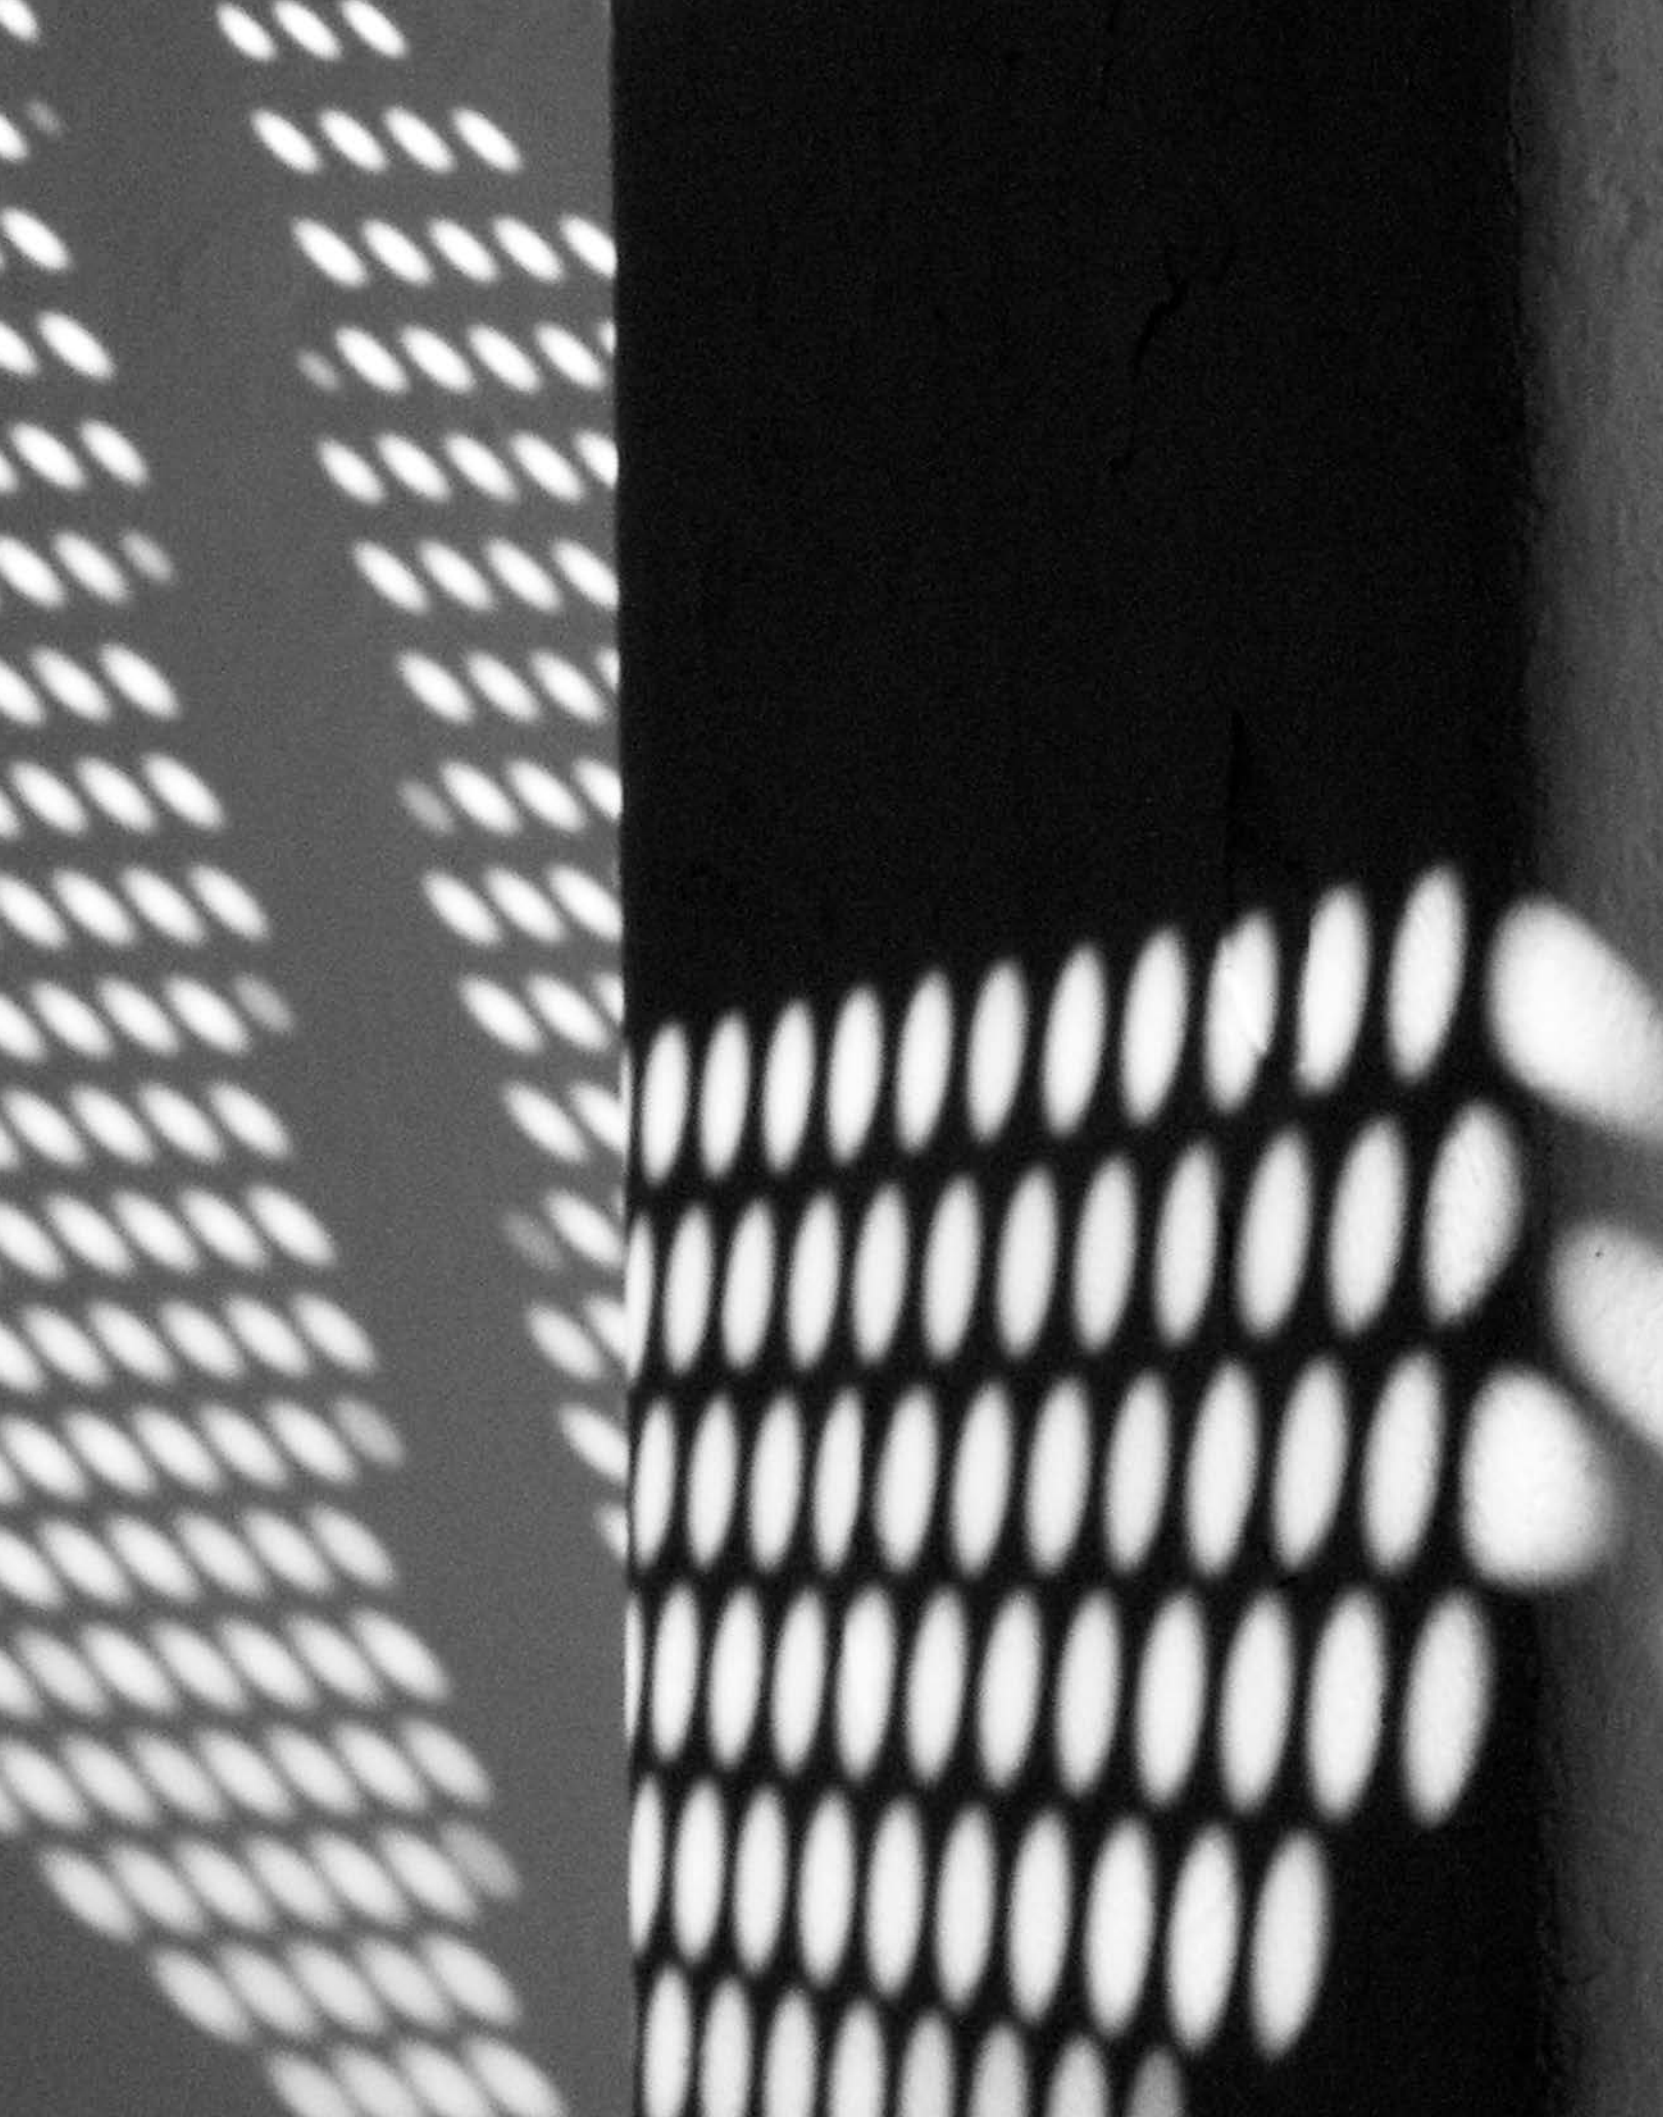

Refined weaves *Trame preziose*

Visual continuity between outdoor and indoor spaces, or diffused light and privacy: for every occasion, our blinds bring the perfect setting to life.

Continuità visiva tra spazi esterni e interni, oppure luce diffusa e privacy: di volta in volta la tenda dà forma allo scenario perfetto.

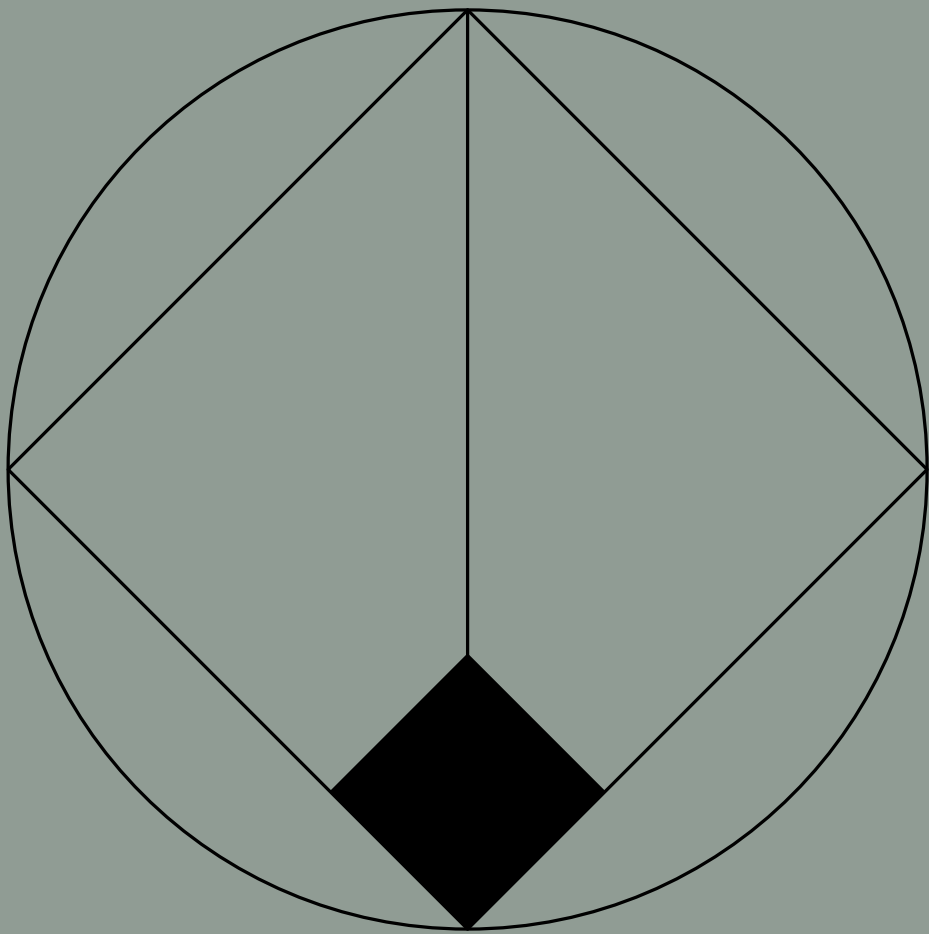

“

**Every moment of light
and dark is a miracle.**

*Ogni momento di luce
e oscurità è un miracolo.*

Walt Whitman

Solutions for enhancing the light in every space.

Soluzioni per vestire la luce, in ogni ambiente.

Perfectly calibrated mechanisms, carefully selected materials, processes designed to guarantee excellent functioning, minimal maintenance of supports and fabrics, and long life: the collection signed by Mycore and Piero Lissoni interprets the essence of authentic Made in Italy.

From this collaboration comes a line skilfully designed to furnish private homes and commercial spaces with a wide range of possible technical solutions, dimensions and configurations.

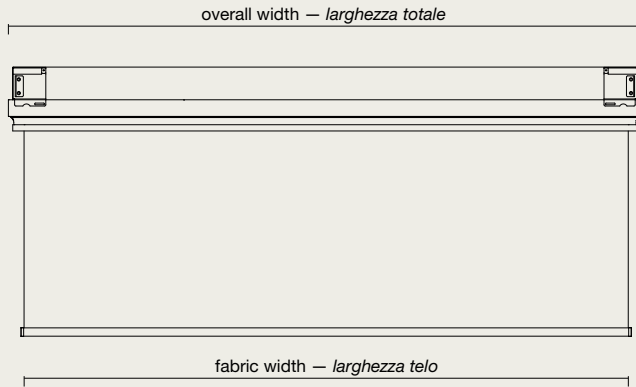

Meccanismi perfettamente calibrati, materiali selezionati con cura artigianale, lavorazioni studiate per garantire l'eccellenza del funzionamento, minima manutenzione dei supporti e dei teli e durata senza limiti: la collezione firmata da Mycore e Piero Lissoni interpreta l'essenza dell'autentico Made in Italy.

Da questa collaborazione nasce una linea sapientemente disegnata per vestire abitazioni private e spazi contract con un ampio ventaglio di soluzioni tecniche, dimensioni e configurazioni possibili.
